ML Strategies has posted its weekly **Health Care Update**. This publication provides timely information on implementation of the Affordable Care Act, Congressional initiatives affecting the health care industry, and federal and state health regulatory developments.

Last week, the Department of Labor issued the first, of what we expect to be at least a few, regulations following the Hobby Lobby case. Also of note, the House Energy and Commerce Committee passed seven public health bills and the HHS Office of the National Coordinator released a study on the potential safety risks for Electronic Health Records.
